\* NCAA Rule 12.17.4

\*\* See NCAA Rules 14.21 and 14.22 for determining difference between when and when not to award an error.

\*\*\* In order for StatCrew to take the obstruction call, the OB must follow the error on the player committing the obstruction; otherwise it doesn't read correctly in the play-by-play; StatCrew does not automatically award an error with just the OB inputted so the E# has to be inputted before.
